golf course  
and generate  
income

Offer tee sponsorship to local businesses

Cast in durable bronze, Phoenix Foundry offers a wide range of customisable tee signage to cater for any budget. Large signs can be manufactured to include a range of information including the club logo, hole number, metreage, rating and a coloured diagram of the hole. Smaller options offering a combination of the above items can also be tailored to suit your requirements. Couple these with replaceable hole sponsorship advertising, and you can generate not only enough to cover the cost of high quality, long-lasting signage, but also create an income for years to come.
